

APPENDIX 1. NOTIFICATION TEMPLATE**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

Este informe contiene información muy importante sobre su agua potable.
Por favor hable con alguien que lo pueda traducir.

Nitrate Monitoring Requirements
Not Met for SKY FOREST MWC During 2022

Our water system failed to monitor as required for drinking water standards during 2022 and, therefore was in violation of the regulations. Although this is not an emergency, as our customers, you have a right to know what happened, what you should do, and what we did to correct the situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During calendar year 2022, we did not collect a nitrate samples from the sources listed in the table below:

Table 1. Sources	
Source Name	Primary Station Code
ROCKY POINT WELL	CA3600258_001_001
MIDDLE WELL (WELL #3)	CA3600258_003_003

and therefore, cannot be sure of the quality of our drinking water during that time.

What should I do?

- There is nothing you need to do at this time.
- The table below lists the contaminant we did not properly test for during the calendar year 2022, how many samples we are required to take and how often, how many samples we took, when samples should have been taken, and the date on which follow-up samples will be taken.

Contaminant	Required sampling frequency	Number of samples taken	When all samples should have been taken	When samples will be taken
Nitrate	Minimum is one sample annually from each active raw water source	None	During calendar year 2022	7-6-2023

- If you have health issues concerning the consumption of this water, you may wish to consult your doctor.

What happened? What is being done? **Testing not complete due to bad weather.**

[Describe corrective action] **Testing will be completed as soon as possible, now that snow has cleared.**

We anticipate resolving the problem within **2 weeks**
