

APPENDIX 1. NOTIFICATION TEMPLATE
IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable.

Tradúzcalo o hable con alguien que lo entienda bien.

**Monitoring Requirements Not Met for
SKY FOREST MWC During March 2023**

Our water system failed to monitor as required for drinking water standards during the past year and, therefore, was in violation of the regulations. Even though this failure was not an emergency, as our customers, you have a right to know what you should do, what happened, and what we did to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During March 2023, we did not monitor or test for total coliform monitoring and therefore, cannot be sure of the quality of our drinking water during that time.

What should I do?

- There is nothing you need to do at this time.
- The table below lists the contaminant(s) we did not properly test for during March 2023, how many samples we are required to take and how often, how many samples we took, when samples should have been taken, and the date on which follow-up samples were taken..

<i>Contaminant</i>	<i>Required Sampling Frequency</i>	<i>Number of Samples Taken</i>	<i>When All Samples Should Have Been Taken</i>	<i>When Samples Were or Will Be Taken</i>
Total Coliform	Monthly	2	March 2023	April 2023

- If you have health issues concerning the consumption of this water, you may wish to consult your doctor.

What happened? What is being done?

We could not access the wells during the snow storm. Samples were taken as soon as the snow cleared.
